

# Landscape Design Questionnaire

**Landscape design services available only at the Division St. location.**

Please complete this questionnaire to ensure we'll receive the information needed to help you create a functional and beautiful garden. The more details you provide, the better we can meet your needs and help you plan your garden. Be sure to get input from everyone involved in the project.

**How to get started:**

- 1) Complete this questionnaire with information pertinent to your project.
- 2) Measure your site, take and print photos. (Details on second page.)
- 3) Call 503-788-9000 ext. 215 to make a consultation appointment with our designer.

### CUSTOMER INFORMATION

Name \_\_\_\_\_ Date \_\_\_\_\_  
 Address \_\_\_\_\_ Zip Code \_\_\_\_\_  
 Day Phone \_\_\_\_\_ Email Address \_\_\_\_\_

## DESIGN NEEDS

### Photographing Your Site

- Firmly plant your feet and rotate while taking pictures. Once printed, tape the photos together to create a panoramic image.
- Take several photos from various angles, close-up, and from a distance to help orient us with your yard. Label your photos.
- Take photos of views you'll see most, from inside and outside the house.
- Photograph plants you'd like identified or would like to keep.

### Measuring Your Site

- With a tape measure, locate the boundaries of your site and sketch them on graph paper. Indicate which way is north on your paper.
- For a small space, 1/4 inch on paper equals 1 foot in the garden. For a large space, set 1/8 inch equal to one foot.
- Measure structures and plants you wish to keep, utility boxes, hose spigots, and windows, noting their height from the ground.
- Mark areas that are particularly moist, dry, sunny, shady, or have poor soil conditions. Indicate views to keep and those to block.

Please check the following that you would like to consider having in the design, circle any choices, and add notes where necessary:

- Screening/Privacy—from noise, poor views, strong light?
- Utility Organization—garbage station, compost bin, woodpile, other?
- Traffic Control—areas to keep people/pets out of? Direct towards?
- Pet Area    Kitchen Garden    Cut Flower Garden    Lawn—large or small?
- Children's Space—need a play surface, garden area, outdoor toy storage?
- Wildlife attractors—birds, butterflies, beneficial insects, other?
- Decorative Features: Arbor, garden art, container plantings, bird bath, other?
- Problem Solvers: Wet or dry soil areas? \_\_\_\_\_  
Erosion issues? \_\_\_\_\_  
Other? \_\_\_\_\_

## PLANT PREFERENCES

- Do you have plant preferences? \_\_\_\_\_
- Already have plants to be placed? \_\_\_\_\_
- Plant dislikes or allergies? \_\_\_\_\_
- Color preferences: \_\_\_\_\_
- Colors to avoid: \_\_\_\_\_
- Fragrance—a little or a lot? \_\_\_\_\_

## GARDEN MOOD

Do you envision a particular garden style that would work for your garden?  
Feel free to bring magazine clippings, etc. that help illustrate what you like!

- Formal                       Informal                       Wildlife Friendly
- Native                         Tropical                       English Cottage
- Sanctuary                   Color Theme                 Edible
- Container Garden         Courtyard                     Other \_\_\_\_\_

How do you want your yard to look and feel? \_\_\_\_\_
